ARGUS® F200: The basic fiber tester

The ARGUS® F200 is a specialized selective power meter, designed for use in GPON and XGS-PON networks.

Modern design and new housing concept

With its robust and even more compact design than its predecessors, the ARGUS® F200 is ideally suited to the demands of daily field service use. The device is equipped with a user-friendly touchscreen and the familiar intuitive ARGUS® menu navigation. Thanks to the freely configurable favorites feature, the most frequently used functions can be accessed even more quickly

Tests on mixed optical fiber accesses

The ARGUS® F200 supports measurements at three or optionally four or five wavelengths. The selective 4-fold powermeter can be switched into an existing PON connection in through mode, enabling the optical levels on the different downstream (OLT) and upstream (ONT) wavelengths for GPON and XGS-PON to be determined precisely at the same time. Other transmitters that may be on the line (so-called Alien-ONT) can be detected. In addition, the PON ID can be read from the PLOAM message. A PLOAM monitor scans all ONU IDs and serial numbers of connected ONTs on a PON branch. With the 5xOPM, a video overlay via five separate filters is also possible as an option.

Additional features

The ARGUS® F200 also features optional WLAN management and 2.4GHz wireless technology. In addition, the Fiber Inspection Tool can be connected via USB, which detects scratches and defects on optical fibers and displays them as a video image and in tabular form.

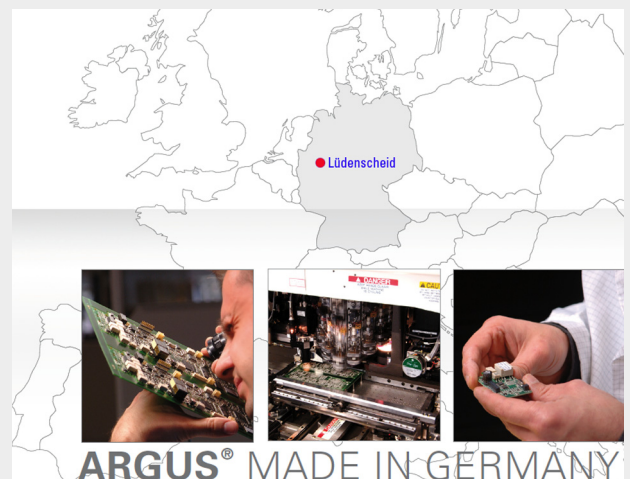

intec Gesellschaft für Informationstechnik mbH

intec Gesellschaft für Informationstechnik mbH has been successfully developing products for the international telecom markets for more than 35 years. Meanwhile specialized in highquality telecommunication measuring devices, we belong to the leading suppliers of fiber optic, G.fast, xDSL and IP measuring technology in Europe and beyond.

Our ARGUS® testers are ideal for developing and documenting new fiber optic infrastructure for the rapid expansion of modern optical networks. They simplify day-to-day work in the maintenance and testing of modern copper-based broadband interfaces as well as in the fiber-optic sector and support troubleshooting and fault location.

Our customers have appreciated the quality of our products and services for many years. This trust in our products has enabled us to supply more than 100,000 ARGUS® testers throughout the world during the last 20 years – a large majority of which have been delivered to international companies such as Deutsche Telekom, Vodafone, Telefonica, KPN or A1 Telekom Austria.

Documentation and Analysis	
• Documentation of all parameters recorded to test reports (in device and on PC) via automatic access tests	
• Transfer of test results via QR code to a smartphone or via WLAN to cloud (FTP server)	
• Transfer of measurement results to the ARGUS® Mobile App	
• Free of charge firmware updates via cloud or via USB (www.argus.info)	
• WLAN for transf. test results to systems of an electronic order processing system, access point mode, remote control via smartphone	

Device Specifications	
Technical Features:	
• Power	Li-Ion battery pack or plug-in mains adapter
• Power management	User configurable
• Keypad	4 keys
• TFT colour display	800 x 480 pixels, backlit, incl. touchscreen
• 2 LEDs	Indicating the status
• ARGUSpedia	Integrated help function
• CE marking	Complies with CE directives
• User safety	Fulfills EN 62368-1
• RoHS conformance	Conformance according to WEEE directive
Interfaces:	
• USB client interface, USB host interface	Type USB-C (power), Type A
• WLAN	IEEE802.11b/g/n /ac, ax detection
• 2.4GHz wireless technology	
Environmental conditions:	
• Temperature range for charging battery pack	0 °C (+32 °F) up to +40 °C (+104 °F)
• Max. Operating temperature (endurance tests)	0 °C (+32 °F) up to +40 °C (+104 °F)
• Max. Operating temperature (in battery mode)	-10 °C (+14 °F) up to +50 °C (+122 °F)
• Operating temperature (with power/car adapter)	0 °C (+32 °F) up to +40 °C (+104 °F)
• Storing Temperature	-20 °C (-4 °F) up to +60 °C (+140 °F)
• Relative humidity	Up to 95 %, non-condensing
Dimensions:	
• Size	H x W x D: 225 x 120 x 68mm (8.85 x 4.72 x 2.68 in)
• Weight	approx. 815 g (1.80 lbs) ARGUS incl. battery pack

data sheet: technical data subject to change.

Standard Package:		
Basic device incl. Selective xPON OPM, PON ID, WLAN management, Li-Ion battery pack, mains adaptor, shock absorbing rubber jacket, carrying case, SC/APC measuring cable		
Basic packages:		
• 3xOPM		Order number: 120602
• 4xOPM incl. Through Mode + Up-/Downstream measurement		Order number: 120632
• 5xOPM incl. Through Mode + Up-/Downstream measurement		Order number: 120612
Additional Options:		
• ONT simulation	sets the SW options GPON and/or XGS-PON-ONT simulation	Order number: 020601
• GPON transceiver	requires Art. No. 020601	Order number: 020602
• XGS-PON transceiver	requires Art. No. 020601	Order number: 020603
• Optical Light Source (1310, 1490, 1550, 1625 nm)	external	Order number: 000280
• Optical Light Source (1310, 1550 nm)	external	Order number: 000297
• Optical Loss Test inkl. 2λOLS	SW-Option Optical Loss Test & 2λOLS: 1310 & 1550 nm	Order number: 020061
• Optical Loss Test inkl. 4λOLS	SW-Option Optical Loss Test & 4λOLS: 1310, 1490, 1550, 1625 nm	Order number: 020062
• Visual Fault Locator(VFL)	external	Order number: 000281
• Fiber Inspection option	w/o Fiber Inspection Tool	Order number: 020694
• 2.4GHz wireless technology		Order number: 020661
* We would be glad to provide further details and information about additional accessories on request.
